## HEFCW's Funding Allocations 2017/18

**Date:** 09 June 2017  
**Reference:** W17/11HE  
**To:** Heads of higher education institutions in Wales  
Principals of directly-funded further education colleges in Wales  
**Response by:** Redistribution response by end of July 2017  
**Contact:** Name: Leanne Holborn  
Telephone: 029 2085 9723  
Email: [leanne.holborn@hefcw.ac.uk](mailto:leanne.holborn@hefcw.ac.uk)  
Name: Hannah Falvey  
Telephone: 029 2085 9720  
Email: [hannah.falvey@hefcw.ac.uk](mailto:hannah.falvey@hefcw.ac.uk)

This circular sets out HEFCW's overall funding distribution for the academic year 2017/18, including individual institutional allocations for teaching and research.

If you require this document in an alternative accessible format, please email [info@hefcw.ac.uk](mailto:info@hefcw.ac.uk).

## Introduction

1. This circular sets out HEFCW's overall funding distribution for the academic year (AY) 2017/18 of £99.3m (£127.6m in 2016/17), including individual institutional allocations for research, part-time undergraduate (PT UG) and full-time undergraduate and Postgraduate Certificate of Education (FT UG/PGCE) teaching funding.
2. AY 2017/18 will be the sixth year since the introduction of the revised student fees and finance system in AY 2012/13. HEFCW's grant funding does not include payments for tuition fee grants or other student support payments which the Welsh Government (WG) administer.
3. The Welsh Government allocates funding to HEFCW annually for Financial Years (FY) from 1 April to 31 March. HEFCW allocates funding to Higher Education providers for Academic Years (AY) from 1 August to 31 July.

## Contents

4. This circular covers all elements of HEFCW's funding allocation for AY 2017/18 as set out in the annual remit letter ([Remit letter FY 2017-18](#)). This includes the formula driven recurrent grants as well as the grants which are allocated subject to the provision of business or other types of plan or strategy. The overall budget and funding allocation details are presented here in Table 1 at the macro level. Some of the funding allocation details for Strategic initiatives such as funding for Reaching Wider will be announced separately.

## Structure

5. There are five main sections in this circular:
  - Overall budget distribution AY 2017/18
  - Allocations of funds for research – Quality Research (QR) and Postgraduate Research (PGR) allocations
  - Teaching allocations for PT and PGT - credit based funding, per capita and premiums for PT UG and per capita funding for PT PGT -
  - Allocations for FT UG and PGCE – expensive subjects premium (ESP) and per capita funding
  - Overall teaching and research allocations by individual institution
6. This circular also covers such matters as data sources, terms of grant, payment arrangements and audit, where appropriate.

## Overall budget distribution AY 2017/18

### Context

#### Financial Year (FY) 2016-17 budget revisions

7. The funding allocation for AY 2016/17 has been revised since the funding allocations circular published in May 2016 (W16/16HE). That funding circular indicated that there may be an in-year adjustment made to the FY 2016-17 budget allocated by the Welsh Government to HEFCW when more robust data on the likely level of expenditure of the Tuition Fee Grant (TFG) was available. That, coupled with the use of indicative figures for FY 2017-18, meant that the AY 2016/17 allocations included in that circular were deemed to be provisional until further budgetary information was available.
8. A revised remit letter for FY 2016-17 was received in October 2016, indicating that the TFG would be in excess of the original estimate of £236.7m and so an additional £21.1m was transferred from HEFCW's budget to Welsh Government, in FY 2016-17, to partly cover the additional TFG expenditure.
9. Also, in FY 2016-17, HEFCW received an additional financial allocation of £20m, which was distributed in April 2017, ([Supporting Strategic Change W16/47HE](#)) to address the following issues:
  - Support for a review of estates rationalisation;
  - The development of investment in higher level apprenticeships;
  - Business incubator and accelerator facilities to improve the links between universities and industry; and
  - A strategic development fund to promote sector capacity and ability to meet strategic challenges and change.
10. This revised FY 2016-17 remit letter also included an additional allocation of £65,000 to support the development of a leadership programme for higher education.
11. In late March 2017, Welsh Government issued a further revised remit letter and budget revisions for FY 2016-17. There were a number of changes to the October revision, which in total amounted to an increase of £4,178,335.
12. The additional funding is analysed in the following table with each item explained in more detail below.

Item	£
Additional funds in lieu of receipts	2,447,000
Educational research	125,335
Supplementary funds for ESP performance arts provision	1,100,000
Support for collaboration between HE and FE	506,000
<b>TOTAL</b>	<b>4,178,335</b>

- Funds in lieu of “receipts” - This amount represents the difference between the original estimate made by Welsh Government of income received by HEFCW from other sources during the year and the actual income received.
- Funding to support high quality research into the relationship between Successful Futures and disadvantaged communities; and to engage researchers in education departments across HEIs in Wales to enhance capacity building and support researchers in playing a more regular and effective role in policy-making and educational practice.
- Funding to help alleviate the impact of reductions to HEFCW’s ESP, specifically to help sustain performing arts provision.
- Funding to improve and increase collaboration between HE and FE, including £25,000 to provide consultancy to strengthen the sustainability of institutions.

13. The comparative funding for AY 2016/17 included in Table 1 takes account of all the revisions above as well as changes to the FY 2017-18 budget compared to the estimates made last year.

### **FY 2017-18 budget**

14. The 2017-18 FY budget was finalised in early January 2017. The table below provides a comparison of the original FY 2016-17 remit letter funding, the March 2017 revised FY 2016-17 remit letter funding and the FY 2017-18 final budget.

	FY 2016-17 original remit letter (March 2016) £	FY 2016-17 revised remit letter (March 2017) £	FY 2017-18 remit letter (March 2017) £
HEFCW Revenue Expenditure	-	-	100,301,000
HEFCW Running Costs <sup>1</sup>	2,491,000	2,491,000	-
HEFCW Current Expenditure (including For our Future)	118,778,000	117,743,000	-
Additional allocation	-	4,178,335	-
Higher Education Receipts	-2,798,000	-2,798,000	-
HEFCW Depreciation	82,000	82,000	90,000
SLC Development Costs <sup>2</sup>	-	-	3,665,000
<b>Total Allocation</b>	<b>118,553,000</b>	<b>121,696,335</b>	<b>104,056,000</b>

**Notes**

- 1) The budgeted running costs for FY 2016-17 were £3,296,540  
2) Indicative budget for SLC costs to be funded from HEFCW budget

15. From FY 2017-18, the budget allocation is presented by the Welsh Government as one amount under a new heading of “HEFCW revenue expenditure”. This heading replaces the separate budget lines previously in place for: For Our Future, HEFCW running costs and HEFCW receipts. The FY 2017-18 remit letter states that decisions on the level of funding allocated to each expenditure line will now be the responsibility of the Council, subject to certain limitations on staff recruitment. However, Welsh Government will still expect HEFCW to provide, at the start of each financial year, a budget for the running costs for the year together with an estimate of anticipated income from sources other than Welsh Government to be received during the year.
16. Prior to FY 2016-17 the implied efficiency gain was calculated by comparing the FY budgets and applying the most recently published GDP deflator. Given the significant reduction in our FY budgets and the reduction in the number and level of budgets affected by the adjustment, in AY 2017/18, as in AY 2016/17, we do not intend to use the efficiency gain adjustment in any calculations.

**Derivation of AY 2017/18 budget**

17. The AY budget for any year is calculated using a proportion of one year's FY budget (usually 60%) and a balancing proportion (usually 40%) of the next, although the Council has applied these proportions more flexibly as required in recent years. Whilst the funding allocation for AY 2016/17 had to be revised and reduced from the original proposals published in the original funding circular, the Council has aimed to minimise the funding reduction by revising the proportion of funding allocated between Financial Years. Table 1 provides the detail of funding allocations from FY to AY. The funding to be allocated for the remainder of AY 2016/17 represents 49% of the current budget for FY 2017-18. Consequently, 51% of the FY 2017-18 budget is available to resource AY 2017/18 and the allocation for AY 2017/18 assumes that 45% of the FY 2018-19 budget will be committed to the AY 2017/18 allocation.
18. It should be noted that the FY 2018-19 budget is indicative at this stage and Welsh Government officials cannot provide any confirmation of the funding from FY 2018-19 onwards. However, the remit letter indicates that we can expect future settlements to increase in each financial year for the lifetime of this government. We consider our estimate of £115m for HEFCW's budget for FY 2018-19 to be a reasonable estimate to use as a basis for allocating

funding for AY 2017/18.

19. Therefore the distribution of FY allocations to the AY 2017/18 is:

	FY 2017-18 £	FY 2018-19 £
Grant-in-Aid	104,056,000	115,000,000
Less - Running Costs	-3,407,432	-3,640,507
Less - Depreciation	-90,000	-90,000
Less - SLC costs	-3,665,000	-
<b>Sub-total</b>	<b>96,893,568</b>	<b>111,269,493</b>

50.71% of FY 2017-18 grant = £49,135,407

45% of FY 2018-19 grant = £50,071,272

Total grant for distribution in AY 2017/18 = £99,206,679

20. To this is added the current estimate for unallocated and uncommitted cash resources at the end of AY 2016/17 of £1,050,966, giving a potential total resource for AY 2017/18 of £100,257,645.

### Total funding allocation and pro-rata adjustment for AY 2017/18

21. The table below summarises the overall funding allocations which are set out in more detail in Tables 1 to 6.

Funding Category	Funding Available for Allocation (£M)	
	Academic Year	
	2016/17	2017/18
Research <sup>1</sup>	79.2	80.6
Full-time teaching <sup>2</sup>	15.1	15.0
Part-time teaching <sup>3</sup>	26.4	27.0
Strategic Funding <sup>4</sup>	31.4	5.2
<b>Baseline allocation prior to funding adjustment</b>	<b>152.1</b>	<b>127.8</b>
Funding Adjustment	-24.5	-28.5
<b>Funding allocation after adjustment</b>	<b>127.6</b>	<b>99.3</b>

**Notes:**

<sup>1</sup> Includes QR, PGR and Sêr Cymru I & II (in addition we received and allocated funds outside the Welsh Government Grant in Aid (GIA) for the Global Challenge Research Fund (GCRF) and the Newton fund of £1.426m in FY 2016-17 and expect to receive and allocate an amount yet to be determined for FY 2017-18).

<sup>2</sup> Includes Expensive Subjects Premium and per capita for Undergraduate (UG) and Postgraduate Taught (PGT) provision.

<sup>3</sup> Includes credit based funding, premiums, per capita, PT adjustment for under recruitment and Open University Mitigation funding.

<sup>4</sup> In AY 2016/17 this includes £20M Strategic Change Fund, £5.4M for the Coleg Cymraeg Cenedlaethol and £1.1M Supplementary Funding for Performance Element included in revised remit letter for FY2016-17.

22. The large reduction in the strategic funding allocation between AY 2016/17 and AY 2017/18 is attributable, in the main, to the additional £20m for strategic change (paragraph 9 refers), awarded by the Welsh Government in FY 2016-17 but not available in FY 2017-18, and because from 1 April 2017, the Coleg Cymraeg Cenedlaethol are funded directly by the Welsh Government, through the Welsh Language Unit, rather than via HEFCW (£5.4m in FY 2016-17) . The Coleg will continue to collaborate with the Funding Council on a wide range of activities, including supporting the new Higher Education Strategy which is currently being prepared.
23. In AY 2016/17, due to the budget changes described in para 8 to 12, we made an in-year funding reduction to recurrent funding of £24.5m, which was calculated on a pro-rata basis across credit-based part-time teaching, QR, PGR and ESP budget lines. However, the total funding reduction for each institution was allocated as one total and not divided between each budget line.
24. In March 2017, HE providers were informed that the published FY 2017-18 budget would result in a funding reduction in AY 2017/18 of around £28.5m. This funding reduction of £28.5m, has been calculated on a pro-rata basis across credit-based part-time teaching, QR, PGR and ESP and presented as a total funding adjustment budget line. The adjustment has not been allocated against individual funding lines. This reflects the Council's view that the HEFCW funding for QR, PGR, part-time teaching and ESP are of equal strategic priority. Whilst a funding reduction has to be made, applying the funding adjustment as a one line reduction rather than an adjustment to each funding line will allow HE providers to make their own decisions as to where and how the funding reduction should be applied within their own institutions. We expect that decisions about allocations to departments and courses will be made strategically by institutions in the light of local circumstances and priorities and with due regard to the potential impact of allocations in terms of their statutory responsibilities, including for equality and diversity as well as other Welsh Government priorities.

### **Budget allocation**

25. Table 1 provides an analysis of the total funding allocation by the main budget headings which have been agreed for AY 2017/18.
26. The equivalent figure for AY 2016/17 is shown for all budget lines.

## Allocations of funds for research

### Quality Research (QR)

27. The QR component of the recurrent grant recognises the quality and volume of research, as demonstrated by the 2014 Research Excellence Framework (REF). For AY 2017/18, the funding set aside for QR is £71.077m equivalent to the funding in the prior year, and the formula applied is the same as that which was applied in AY 2016/17, details of which are available on the HEFCW website
28. We have extended, for one further year, the ring-fence on the funding previously allocated to the University of Wales Press, pending wider review of our research funding arrangements. In AY 2017/18, this funding (£132k in total) will continue to be ring-fenced within QR for the purpose of supporting scholarly publications and related activities in the fields of Welsh culture, history and literature. We will review this arrangement in the future. The ring-fenced amounts for individual institutions remain at the amounts which we notified in 2011.
29. The AY 2016/17 QR allocations are set out by institution in Table 2. A breakdown for each institution by Unit of Assessment (UoA) is provided in Annex A. The funding per unit volume by subject group and quality level is shown at Annex B.

### Postgraduate Research Training (PGR)

30. PGR is supported outside the teaching funding method. The threshold for a UoA to be included in the calculation of PGR funding is set at the same level as QR.
31. Funding is within an overall maximum amount agreed by HEFCW each year and is based on the most recent confirmed number of actual enrolments. These are the eligible, fundable enrolments in UoAs which qualify for QR funding in 2017/18. The enrolment data are taken from the Higher Education Statistics Agency (HESA) student record returns for AY 2015/16.
32. For AY 2017/18, the Council set the overall maximum amount of funding for PGR, maintaining the AY 2016/17 cash level of £5.17m. Not all PGR students can necessarily be funded with the funds available. Where the funding allocated to institutions on the basis of the standard units of funding would exceed the total available, allocations are reduced on a pro rata basis. The PGR allocations are set out in Table 3.

## **Funding for teaching Part-time Undergraduate (PT UG) and Postgraduate Taught (PGT)**

33. We are continuing to fund PT UG through the current credit based funding method (including current premiums and per capita) in AY 2017/18 but, as was the case in AY 2016/17, there will not be any PGT credit based teaching or premium funding. In AY 2017/18, for PT and FT PGT provision, we will only provide per capita funding being a payment of £5 per postgraduate taught student.

### **Teaching allocations – PT UG only**

34. Funds for PT UG teaching have been determined using HEFCW's teaching funding method. This is described in detail in HEFCW circular W99/71HE, dated 30 July 1999. HEFCW circular W01/66HE, dated 3 August 2001, sets out the arrangements and procedures under which funding by credit value operates. A change was made in AY 2011/12 with the removal of the recovery element of the method.

### **Funding cells**

35. Funding allocations are based on funding cells. A funding cell refers to a particular:
- *level*: undergraduate (not franchised-out); undergraduate franchised out;
  - *mode*: part-time;
  - *academic subject category (ASC)*: ASCs 1a to 11b and ASC 11a, Initial Teacher Training (ITT) leading to Qualified Teacher Status (QTS), split into Primary and Secondary.

### **Academic subject categories**

36. Funding in each cell is established by multiplying the number of credit values funded in that cell by HEFCW's standard unit of funding for the ASC.
37. The standard units of funding per credit value for each ASC for PT UG in AY 2017/18 are the same as those used in AY 2016/17. These are set out in Annex C.

### **Allocations of teaching funding and funded credit values**

38. Total PT UG funding and funded credit value allocations in each cell are shown in Annex D.
39. The PT UG core numbers are determined by the funding model. They are calculated by using funded credits from AY 2016/17 and allocating them to funding cells using both the distribution of funded numbers for AY

2016/17 and figures from the End of Year Monitoring Report (EYM) AY 2015/16 extracted from the HESA student record for HEIs and collected on the EYM survey for FEIs. This process is described in more detail in the circular referenced in paragraph 34.

40. We will provide funding only for the number of credits set out in Annex D to this circular; numbers above the funded numbers will attract only the appropriate fee. Welsh Government have previously made clear that they do not wish to see significant real-terms increases in part-time fee levels. As indicated previously we plan to undertake a more fundamental review in the light of the outcomes of Professor Sir Ian Diamond's independent review of higher education funding and student finance arrangements.

### **Per capita – PT UG and all PGT provision**

41. The per capita amount for AY 2017/18 has been set at a rate of £5 per student. Payments have been determined on the basis of fundable enrolments according to AY 2015/16 HESA or Welsh Government Lifelong Learning Wales Record (LLWR) data, as appropriate, subject to the minimum 10 credit value study requirement. The amount of per capita funding allocated to each institution is shown in Table 4a.

### **Part-time fee waiver**

42. HEFCW's part-time undergraduate fee waiver scheme offers grants to institutions that waive fees for part-time students studying less than 30 credits (i.e. below 25% full time equivalent) who are unemployed and registered jobseekers or are in receipt of Department for Work and Pensions (DWP) benefits. The figure quoted in Table 1 represents an estimate at this stage of the expected call on this budget.

### **Premiums - PT UG**

43. Table 4b sets out the PT UG individual allocations for the Access and Retention premium, the Welsh Medium premium and the Disability premium.

44. Each premium is described below.
  - *Disability Premium* - A rate of funding allocated per eligible student, which are those students recorded as in receipt of the Disabled Students' Allowance on the HESA student record or, in the case of FEIs, returns made directly to HEFCW, and are subject to the minimum 10 credit value study requirement (or 8.3 % FTE for PGR students). In AY 2017/18 for PT UG students the rate will be £300, the same as that available in AY 2016/17. The allocations are set out in Table 4b. Also included in Table 4b are the disability premium allocations for PGR.

- *Welsh Medium Premium* - The Welsh Medium premium adds a weighting of 0.34 to the AY 2017/18 unit of funding for modules undertaken through the medium of Welsh. The allocations to each institution, based on the average of AY 2014/15 and AY 2015/16 HESA credit value data, or in the case of FEIs, returns made directly to HEFCW, are set out in Table 4b.
- *Access and Retention Premium* - There are two elements to the Access and Retention premium allocations for part-time undergraduate provision. A premium is awarded in respect of students from areas of low participation in higher education and students from Communities First clusters. Individual students may attract more than one premium.

In order to reward retention, we have allocated a higher rate of funding with respect to continuing students than to students in their first year. The higher rate is also allocated with respect to students on one year courses who complete or partially complete.

To recognise that the proportion of widening access students within an institution impacts on the extent of support required, institutions have been separated into two bands depending on their recruitment in AY 2015/16 from Communities First areas. Institutions where students from Communities First areas represent more than 15 per cent of Welsh domiciled students are in band 1 and receive a higher premium, and those where students from Communities First areas represent 15 per cent or less are in band 2 and receive a lower premium.

For AY 2017/18, we will maintain the level of Access and Retention premium at the AY 2016/17 levels. Individual allocations are detailed in Table 4b.

### **Total PT and PGT funding allocations**

45. Table 4a shows both funded credit numbers and associated funding for PT UG teaching, premiums and per capita, and PT and FT PGT per capita.

### **Allocations for Full-time Undergraduate (FT UG) and PGCE**

46. As for AY 2016/17, the higher rates of ESP are the only funding premiums being allocated for FT UG/PGCE. These are allocated in respect of Clinical Medicine/Dentistry and Conservatoire Performance Element provision.
47. The ESP will be retained at the AY 2016/17 level. The allocations are outlined in Table 5 and have been based on the two premium rates below, awarded per completed credit value –

#### *Expensive subjects premium:*

- Rate 1 - £80, applied to clinical medical/dentistry subjects

- (equivalent to academic subject categories (ASCs) 1b and 1d)
  - Rate 2 - £30, applied to Conservatoire Performance Element (Performance Element provision in ASC 10)
48. In addition, as was the case in AY 2016/17, in AY 2017/18 provision for ESP will be capped by limiting the number of credit values that can be used in the calculation. For Clinical Medicine and Dentistry, this is the credit values equivalent to the number of quota clinical places, and for Conservatoire provision, credit values equivalent to the funded student number that was agreed as part of the special funding arrangement in place prior the introduction of the revised tuition fee regime in AY 2012/13.
49. Also, to ensure funding at some level for all students, the per capita element of the current funding method has been maintained for all FT UG/PGCE students, at the level of £5 per student.

### **Overall research, PT UG teaching and FT UG/PCGE funding allocations**

50. Table 6 sets out the allocations to each institution for HEFCW teaching and research funding and provides a comparison with the HEFCW funding allocations in AY 2016/17. It includes an amount of pro-rata funding reduction, in each year, attributable to each institution. However, as previously stated, although that pro-rata adjustment has been calculated pro-rata on teaching, QR, PGR, and ESP allocations, institutions are not required to replicate HEFCW's approach when making their own internal adjustments.
51. The AY 2016/17 figures in Table 6 include details by institution of the final allocations that were issued following the distribution of the £20m Strategic Change Fund (Circular [W16/47HE](#) refers). This has been included to provide a more comprehensive view of the changes in institutional funding allocations between AY 2016/17 and AY 2017/18.
52. These allocations do not take account of any potential in-year funding adjustments for FY 2017-18 that may be applied by Welsh Government. Any such funding adjustments will result in a revision to the individual allocations. In addition, if the FY 2018-19 allocation is different to the amount assumed for this allocation, there will be an impact on the resource available in AY 2017/18 and the associated allocations.
53. In order to facilitate some flexibility and collaboration, institutions are offered the opportunity to redistribute PT UG funded credits between institutions on a cost neutral basis. Should institutions wish to exercise this option, they should jointly inform HEFCW officers of their intentions by the end of July 2017.

## Mitigation funding

54. Previously, when budgets were less constrained, HEFCW provided transitional funding where significant funding reductions were being made which impacted on institutions differentially. This allowed institutions time to adapt to the reduced funding level. With the exception of the OU in Wales, there are no further mitigation funding allocations in AY 2017/18 due to the budget constraints.
55. Since AY 2013/14, the Council have given special consideration in determining the overall allocations to the OU in Wales. In the light of the budget changes, Council recognise that the OU has no FT UG fee income to off-set any reductions in the other budget lines. As a result, we monitor the overall impact on the OU and make an adjustment to compensate for their inability to replace strategy funding with FT UG fee income, and to compensate for the loss of PT premium funding.
56. In AY 2016/17, repeating what was done in previous years, we awarded the OU a one-off payment, essentially to the value of the strategy funding they have lost, the equivalent amount of funding that they would have received in AY 2015/16 for the PT premium, had we not removed it, and the amount of PT PGT core teaching funding that the OU received in AY 2015/16 prior to the removal of that funding. We will be providing the same amount of additional funding to the OU in AY 2017/18 (£1.655m). In addition we are still committed to monitoring the OU in Wales fees only position, and have put in place a process where, at the end of an academic year, we will use the EYM data to determine the actual delivery of any fees only unfunded provision. As an incentive to continue to grow PT provision, depending on affordability, we will retrospectively reward the OU with the funds to cover the fees only element.
57. Table 6 includes the mitigation funding for the OU.

## Terms and payment of grant, data sources and audit

### Terms of grant

58. The basis on which PT UG teaching funding, per capita, FT UG/PGCE and research funding is being provided to HEIs is set out in the Annual Schedule to the Memorandum of Assurance and Accountability between HEFCW and individual institutions, and will reflect the latest Welsh Government conditions of funding as set out in HEFCW's FY 2017-18 Remit Letter. For FEIs, it is set out in their Annual Funding Agreement. The Funding Agreements for AY 2017/18 will be issued by November 2017 and will specify the arrangements for adjustment of funding where institutions fail to achieve the PT UG numbers for which they have been funded.
59. There will be a leeway of 1% for under-recruitment on the total funded numbers for PT credit based funding. As in prior years, funding clawback adjustments for AY 2017/18 amounting to a threshold of the lesser of £50,000

or 10% of the total teaching allocations will be regarded as *de minimis* and not applied. If clawback is applied, the threshold will be deducted from the clawback amount.

- 60. It should be noted that institutions are not required to replicate HEFCW's approach to establishing allocations when making their own internal allocations. We expect that decisions on detailed resource allocations to departments and courses will be made strategically by institutions in the light of local circumstances and priorities and with due regard to the potential impact of allocations in terms of their statutory responsibilities, including for equality and diversity, as well as other Welsh Government priorities.**

### **Data sources**

61. The data used for funding have been provided and checked by institutions.
62. The data for funded credit based funding for teaching have been taken from EYM data extracted from the HESA student record for 2015/16 or collected directly from FEIs.
63. Per capita allocations and premium allocations have been based on the latest available confirmed enrolment data. These are, as appropriate, the HESA data for AY 2015/16 and the Welsh Government Lifelong Learning Wales Record (LLWR) data for the same year. Where the LLWR has not been able to provide the data required, HEFCW has obtained them directly from the institutions concerned.
64. Welsh medium premium allocations for HEIs have been based on the average of the AY 2014/15 and AY 2015/16 HESA credit value data. For FEIs, they have been based on information provided to HEFCW directly by the institutions concerned.
65. Funding allocations for PGR have been based on AY 2015/16 HESA data.
66. The data for funding for research have been taken from the returns to, and the outcomes of, the 2014 REF. In addition, minor volume measures data about research assistants and research students have been taken from the 2013/14 HESA staff and student records respectively.

### **Payment of grant**

67. Our initial assumptions in AY 2016/17 were that our PT teaching and research payments were to be made in the following profile, and the ESP profile was for the full amount to be paid in March 2017. As a result of the in-year budget changes and subsequent pro-rata adjustment these profiles were changed to ensure that the institutions were paid as much of

their recurrent funds prior to the end of March 2017 as possible. However, in AY 2017/18, we intend to return to this profile for PT teaching and research, and payment in March for ESP.

Aug	Sept	Oct	Nov	Dec	Jan	Feb	March	April	May	June	July
10%	10%	10%	6%	0	0	10%	0	13.5%	13.5%	13.5%	13.5%

68. Should there be budget changes or cash management constraints (e.g. HEFCW's carry forward limit from one FY to the next) we may require this profile to be adjusted in-year.

### Audit of data and quality

69. The allocations of funds for teaching, FT UG/PGCE, PGR and QR are established by applying HEFCW's funding methods to data supplied by institutions. Data provided by institutions and used for funding purposes are subject to audit. Details of the current process of audit can be found in HEFCW circular *W14/11HE Audit of Higher Education Data 2014/15 to 2017/18*.
70. Where, as a result of audit, HEFCW finds that the data on which allocations have been based have resulted in any institution receiving an allocation larger than it's due, the funding for the institution concerned may be adjusted.
71. Our procedures for addressing unsatisfactory quality in institutions in Wales (HEFCW circular *W16/05HE*) reports on actions we will take where regulated institutions demonstrate quality which is, or is likely to become, inadequate prior to the initiation of statutory intervention. It aims to ensure that the interests of students, the provider and the wider higher education (HE) sector are protected.

### Summary tables

#### The summary tables which follow are

- Table 1 Overall funding allocations AY 2017/18, including comparisons with AY 2016/17
- Table 2 Quality Research allocations AY 2017/18
- Table 3 Postgraduate Research Training allocations AY 2017/18
- Table 4a PT UG Teaching: funded numbers and funding allocations AY 2017/18
- Table 4b PT UG Premium Funding Allocations AY 2017/18
- Table 5 FT UG/PGCE allocations AY 2017/18
- Table 6 Funding comparison AY 2016/17 and AY 2017/18

**Detailed breakdowns are given in**

- Annex A QR allocations AY 2017/18 by institution, by unit of assessment
- Annex B QR funds per unit volume by subject group and quality level
- Annex C Units of funding for AY 2017/18
- Annex D PT UG Teaching funds and funded numbers AY 2017/18 overall and by institution, by ASC

<sup>(1)</sup> Allocations shown here place ITT (QTS) provision at the delivering institution.

<sup>(2)</sup> Premiums consist of the access and retention premium (PT UG), the Welsh medium premium (PT UG) and the disability premium (PT UG and PGR).

<sup>(3)</sup> FT UG/PGCE premium allocation is the expensive subjects premium.

<sup>(4)</sup> Totals may not sum exactly due to rounding.

<sup>(5)</sup> Mitigation funding is allocated to the Open University in Wales because of their unique position in receiving part-time funding only and no income from increased full-time fees under the new regime. See paragraphs 54 to 57 of the circular text.

Multiple submissions: **Aberystwyth University:** UoA 28 A - Modern Languages and Linguistics, B - Celtic Studies; **Cardiff University:** UoA 16 A - Planning and Geography, B - Architecture; **Swansea University:** UoA 3 A - Allied Health professions, B - Nursing; UoA 28 A - Modern Languages and Linguistics, B - Celtic Studies.

## Annex B: QR Funds per unit volume AY 2017/18 by Subject Band and Quality Level

Subject band		Funds per unit volume (£)	
		4*	3*
A	Clinical medicine and laboratory based subjects	56,941	18,980
B	Subjects with a technical/experimental premium	46,265	15,422
C	Other subjects	35,588	11,863

Note: these units of funding relate to the main part of QR funding allocated on the basis of subject and quality weighted research volume, and do not apply to the charity income, rewarding excellence or publications fund elements of the QR allocation.

## Annex C: Units of Funding AY 2017/18

### Teaching

Academic Subject Category		Unit of Funding £ per credit value
		Undergraduate
1	Medicine and Dentistry	
2	Subjects and Professions Allied to Medicine	26.47
3	Science	30.09
4	Engineering and Technology	33.87
5	Built Environment	26.83
6	Mathematical Sciences, IT & Computing	23.74
7	Business and Management	14.83
8	Social Sciences	13.16
9	Humanities	18.67
10	Art, Design and Performing Arts	23.33
11a	Education: Initial Teacher Training (QTS)	26.89
11b	Education: Non-QTS	22.78

#### Notes:

The units of funding shown here have been used in the calculation of the credit based funding for part-time provision and in the calculation of the Welsh medium premium.

### Postgraduate Research Training

Academic Subject Category Grouping		Unit of Funding £ per full-time student
1b, 1d	Clinical Medicine and Dentistry	8,444
3, 4, 6	Science; Engineering and Technology; Mathematical Sciences, IT and Computing	2,996
2, 5, 7-10, 11b	Other ASCs	1,517

Note: Part-time students are counted at 0.5 full-time equivalent in the calculation of postgraduate research training.

Where the level of recruitment of PGR students exceeds the number that can be funded from the money available, not all students are funded.

## Annex D
