2008 Research Assessment Exercise: Outcomes for the Welsh Higher Education Sector

Date: 26 March 2009
Reference: W09/07HE
To: Heads of higher education institutions in Wales
Response by: No response required
Contact: Name: Linda Tiller
Telephone: 029 2068 2228
Email: linda.tiller@hefcw.ac.uk

This Circular provides a record of the outcomes of the 2008 Research Assessment Exercise (RAE) in Wales.

This document is available online, in large print, Braille, on CD and on audio CD and cassette. Should you or someone you know require this in an alternative format, please contact us on (029) 2068 2280 or email info@hefcw.ac.uk.

Lywodraeth Cynulliad Cymru
Sponsored by
Welsh Assembly Government

Introduction

- 1 This Circular provides a record of the outcomes of the 2008 Research Assessment Exercise (RAE) in Wales.

Background

- 2 The RAE is a UK-wide exercise conducted jointly by the four UK higher education funding bodies. Its main purpose is to produce quality indicators for use in determining the allocation of grant for research (QR).
- 3 The 2008 RAE was the sixth in a series of such exercises; the previous RAE took place in 2001. The 2008 RAE was the last exercise in the current form, and the funding bodies are currently developing new arrangements for research assessment which will make greater use of metric indicators.
- 4 Further information about the 2008 RAE is available on the RAE website at www.rae.ac.uk.

The 2008 RAE Process

- 5 The 2008 RAE was conducted on broadly similar lines to previous exercises. The quality assessments were undertaken by subject-based panels of experts on the basis of written submissions from institutions. In 2008, there were 67 such panels, each responsible for a separate Unit of Assessment (UoA). There were additionally 15 overarching Main Panels whose role was to promote consistency across the exercise.
- 6 The principal difference between the 2008 RAE and the previous exercise was that in 2001 the outcome for each submission was expressed as a single rating on a seven point scale (1 to 5*) but, in 2008, outcomes were expressed in the form of a quality profile. The new approach enabled panels to exercise a finer degree of judgement at the top end, and also provides a more detailed picture of the full range of quality within submissions.
- 7 The profiles were built up from assessment of the quality of research outputs (the main component), the research environment and evidence of peer esteem. The profiles show, for each submission, the proportion of work (in 5% steps) judged to reach each of four quality levels ranging from 4* (world leading) down to 1* (nationally recognised) and unclassified. The full definitions of the quality levels are shown at **Annex A**.

Number and Size of Submissions

- 8 The number of submissions from Welsh HEIs to the 2008 RAE are shown in the following table, together with comparative UK-wide figures. There was one joint submission from Wales (from UWIC and UW Newport to Art and Design).

	Wales	UK	Wales as % of UK
Number of institutions submitting to 2008 RAE	10 plus CAWCS ¹	159	6.9%
Number of submissions to 2008 RAE	144	2,344	6.1%
Number of Category A staff (FTE) to 2008 RAE	2,578	52,409	4.9%

- 9 The number of staff submitted by Welsh HEIs to the 2008 RAE was 15% higher than in 2001². The increase for the UK as a whole between the two exercises was 12%.
- 10 The number of submissions and volume of Category A staff is shown by institution at **Annex B**. A breakdown of Category A staff by broad subject group in the 2001 and 2008 RAEs is shown at **Annex C**.

Quality Outcomes

- 11 The following material is attached:
- 2008 RAE outcomes for the Welsh HE sector by UoA - **Annex D**
 - 2008 RAE outcomes for the Welsh HE sector by institution – **Annex E**
 - Overall quality profiles by institution – **Annex F**
 - Volume of Category A staff (FTE) by institution and quality level – **Annex G**
 - Graphical representations of volume of Category A staff (FTE) by institution and quality level – **Annexes H and I**.

¹ CAWCS is the University of Wales Centre for Advanced Welsh and Celtic Studies.

² In 2001, staff returns consisted of both Category A staff and Category A* staff (staff who transferred between institutions in the year before the census date). The 2001 figures in this Circular include Category A* staff who were present at the submitting institution on the census date.

12 The overall quality profile for the Welsh HE sector as a whole was as follows:

Quality Level	% of Research Activity
4*	14%
3*	35%
2*	36%
1*	14%
Unclassified	1%

UK Comparisons

13 The overall quality profiles for the UK as a whole, and for the other constituent countries, are shown below:

Quality Level	% of Research Activity				
	Wales	England	Scotland	N Ireland	UK
4*	14%	18%	15%	14%	17%
3*	35%	37%	37%	36%	37%
2*	36%	32%	34%	37%	33%
1*	14%	11%	13%	12%	11%
u/c	1%	1%	2%	1%	1%

14 Equivalent figures for the 2001 RAE, when comparisons between countries were made on the basis of overall weighted average scores, are shown below. These tables indicate that Wales was slightly behind the UK as a whole in both exercises, but that the sector broadly maintained its relative position in 2008.

	2001 RAE – overall weighted average scores (calculated on a 7-point scale)
Wales	5.16
England	5.45
Scotland	5.37
Northern Ireland	5.09
UK	5.42

Performance at Subject Level

15 There were strong performances by the Welsh sector in the following UoAs where, in each case, more than one institution attained proportions

of 3* and 4* quality which significantly exceeded the UK average for the UoA:

- Allied Health Professions
- Computer Science and Informatics
- Civil Engineering
- Psychology
- Celtic Studies

16 There were also a number of UoAs in which **individual** institutions performed strongly, attaining proportions of 3* and 4* quality which significantly exceeded the UK average for the UoA. These UoAs included:

- Accounting and Finance
- Business and Management
- Communications, Cultural and Media Studies
- Psychiatry and Neuroscience
- Sociology
- Politics and International Studies
- Town and Country Planning

Further information

17 For further information, contact Linda Tiller (tel 029 2068 2228; email linda.tiller@hefcw.ac.uk).

2008 RAE – Definitions of Quality Levels

The definitions of the quality levels are:

- Four star (4*) – Quality that is world-leading in terms of originality, significance and rigour.
- Three star (3*) – Quality that is internationally excellent in terms of originality, significance and rigour, but which nevertheless falls short of the highest standards of excellence.
- Two star (2*) – Quality that is recognised internationally in terms of originality, significance and rigour.
- One star (1*) - Quality that is recognised nationally in terms of originality, significance and rigour.
- Unclassified – Quality that falls below the standard of nationally recognised work. Or work which does not meet the published definition of research for the assessment.

**Volume of Staff and Numbers of Submissions
in 2008 and 2001 RAEs**

Institution	Volume of Staff Submitted			Number of Submissions		
	FTE Category A staff in RAE 2008	FTE Category A/A* staff in RAE 2001	Difference between 2001 and 2008	Number of submissions in 2008	Number of submissions in 2001	Difference between 2001 and 2008
University of Glamorgan	198.5	154.0	44.5	17	9	8
Aberystwyth University	300.8	295.6	5.2	16	21	-5
Bangor University	283.8	265.1	18.7	19	19	0
Cardiff University	1,030.2	932.9	97.3	34	33	1
UW Lampeter	59.6	58.0	1.6	5	10	-5
Swansea University	511.8	402.4	109.4	31	28	3
UWIC	101.6	55.5	46.1	6	4	2
UW Newport	27.5	16.0	11.5	5	3	2
Glyndŵr University	26.8	25.9	0.9	6	4	2
Swansea Metropolitan University	25.1	16.8	8.3	4	5	-1
Trinity University College	n/a	7.3	7.3	0	2	-2
CAWCS	12.5	12.2	0.3	1	1	0
Wales	2,578.2	2,241.7	336.5	144	139	5

2001 data for Cardiff University include staff and submissions from the former UW College of Medicine.

Distribution of Category A Staff by Broad Subject Group

	Category A Staff Submitted - Wales		
	2008 RAE	2001 RAE	Difference
Clinical Subjects	184	187	-2%
Subjects Allied to Health	218	150	45%
Science and Mathematics	672	582	15%
Engineering	150	139	8%
STEM Total	1,223	1,059	16%
Social Sciences	682	549	24%
Arts and Humanities	636	559	14%
Education	37	75	-51%
All Subjects	2,578	2,242	15%

Note:

Education researchers from Cardiff University were returned to a Social Sciences UoA in 2008, which explains at least part of the apparent sharp decrease in Education.

2008 Research Assessment Exercise Results : Wales

Note: In this table, joint submissions are shown split by their constituent institutions.

		Overall quality profile (percentage of research activity at each quality level)

The volume of Category A staff in each quality level is not a headcount of actual individuals. It is calculated by multiplying the percentage at each quality level by the number of staff in that submission. The values for each submission are then summed for the institution as a whole.

Volume of Category A Staff (FTE) by Quality Level

Volume of Category A Staff (FTE) by Quality Level
