Source: HESA student record 2017/18

Summary data

	Starters before 1 September 2014	Starters on or after 1 September 2014	Total
Number of students receiving a fee waiver	0	0	0
Number of credit values associated with students receiving a fee waiver	0	0	0
Total value of fee waivers	0	0	0

Where there are more than 10 discretionary fee waivers HEFCW should have been informed (as per paragraphs 28 and 42 of circular W17/22HE, and in upcoming equivalent circular for 2018).

Discretionary fee waivers	Number
	0

Notes:

If data contacts believe that the data has been extracted incorrectly or that there are any other issues with the way that the data are displayed in this table, they should contact HEFCW at hestats@hefcw.ac.uk during the HESA submission process so that HEFCW can rectify the problem.

Rows that contain data that may be errors or anomalies are shaded. These are where combinations of mode of study, level of study, level of highest qualification on entry, FTE and/or value of fee waived do not appear to fit the criteria. Please provide an explanation of any anomalies when returning this table signed off (a circular requesting the sign off is due to be published and further instructions about the sign off process will be sent to data contacts). Anomalies seen may be legitimate uses of the fee waiver, and may, for example, be due to non-standard academic years, or changes in mode of study or course.

I confirm that the data recorded on the HESA student record that form the basis of the above table is consistent with HEFCW directives and guidance and represents the final signed off set of data submitted to HESA.

Any amendments not included in the final signed off set of Student Record data submitted to HESA should be highlighted in red with an explanation for the change provided by email.

Where no fee waivers have been given the table should be signed off to confirm that this is the case.
