Notes

HESA standard registration population

Regions are those used in regional strategy planning and as outlined in Annex A of circular W10/28HE: Regional strategies for the planning and delivery of higher education: funding and support.

Enrolments are allocated to the region where the HEI is located except for distance learning students and franchised out students. Distance learning students are allocated to the region they are domiciled in. Franchised out students are allocated to the region where the franchised institution is located if known and in Wales, else to the region of the HEI.

A small number of OU enrolments have unknown postcodes, these enrolments have been allocated to the regions pro-rata to the distribution of OU students with known postcodes.

Numbers in individual cells may not appear to sum to the totals, this is due to rounding.

Percentages - year on year difference, and across period difference

Part-time foundation degree enrolments at Welsh HEIs by region of institution and credit volume
