# Secondary Initial Teacher Training: Intake targets 2016/17

**Date:** 8 January 2016  
**Reference:** W16/01HE  
**To:** Heads of higher education institutions in Wales providing  
initial teacher training courses  
**Response by:** No response required  
**Contact:** Name: Kimberley Meringolo  
Telephone: 029 2068 2258  
Email: [kimberley.meringolo@hefcw.ac.uk](mailto:kimberley.meringolo@hefcw.ac.uk)

This circular sets out secondary initial teacher training intake targets for 2016/17 for the three Centres of Teacher Education.

If you require this document in an alternative accessible format, please telephone us on (029) 2068 2225 or email [info@hefcw.ac.uk](mailto:info@hefcw.ac.uk).

## Introduction

1. This circular sets out secondary initial teacher training (ITT) intake targets for 2016/17 for the three Centres of Teacher Education.

## Background

2. We informed you of the primary and secondary ITT intake targets which have been set for the sector by the Welsh Government for 2016/17 in December 2015 ([circular W15/28HE](#)). The circular included the letter from the Welsh Government setting out the basis for the targets.
3. Primary intake targets for the three Centres of Teacher Education for 2016/17 have been published in [circular W15/30HE](#).

## Secondary intake targets 2016/17

4. For secondary intake targets, the Welsh Government asked us to put proposals to them by the end of January for approval. We did this by the end of December 2015, and have now received approval. The secondary ITT intake targets for 2016/17 for the three Centres of Teacher Education are set out at **Annex A**.

## Secondary PGCE targets

5. As noted in circular W15/28HE the overall secondary intake targets numbers remain unchanged from 2015/16.
6. As in 2015/16 we have shown Information Technology within the priority subject grouping in **Annex A**.
7. In finalising the targets for 2016/17, we have continued our practice of not allocating an intake target of less than 10 to any subject in any Centre. The exception is Outdoor Studies in the North and Mid Wales Centre where a target of five is normally allocated, and for Physics and Chemistry, where we have separated the targets for the two subjects, on the basis of previous HESES data.
8. The reduction in targets over previous years has meant that there are a greater number of cohorts at this minimum level. There may therefore be issues of overall viability, as well as a potential adverse effect on the quality of the student experience where cohorts of less than ten are recruited. We will therefore continue to review whether we should continue to support very small subject cohorts in future or whether there should be some rationalisation of subjects between Centres. The Furlong recommendations may also impact on these issues in the future.

9. In undertaking your recruitment for 2016/17, we draw your attention to the following considerations:
- In light of the Estyn inspection outcome of the North and Mid-Wales Centre for Teacher Education, the numbers allocated to this Centre in Annex A are provisional, subject to the outcomes of the Estyn visit to the Centre in January 2016. HEFCW will work closely with the Centre and confirm in early February as to whether the targets will be confirmed.
  - Chemistry and Physics subjects can be linked with wider science content, but only courses where chemistry or physics are the main component would qualify for inclusion in the 'priority subjects' intake grouping.
  - While the intake targets do not include separate Welsh medium intake targets, we encourage you to develop and offer Welsh medium provision where possible, and to consider the viability of Welsh medium provision working with the Coleg Cymraeg Cenedlaethol. Work with the Coleg Cymraeg Cenedlaethol includes the piloting of the Welsh medium competency certificate. Our annual letter from the Welsh Government asked that we monitor the Welsh medium intake position accordingly. In the event of any changes to reporting arrangements we will communicate separately with the sector.
  - We particularly draw to your attention the need to protect secondary English numbers in order to support literacy standards.

### **Secondary undergraduate targets**

10. The total sector target for secondary undergraduate (UG) intake remains unchanged from 2015/16 at 95, however following discussions with the sector we have only allocated 86. The remaining 9 numbers have been returned to Welsh Government for allocation through alternative routes such as the Graduate Teaching Programme.

### **Controls on ITT recruitment**

11. In the annual letters we receive from the Welsh Government setting out the intake targets, HEFCW is asked to ensure that over-recruitment against targets does not occur. This has been particularly the case for primary provision which is traditionally popular amongst applicants. It has been less so for secondary subjects, with under-recruitment being more of an issue. However, the situation does vary from year to year, with the potential for exceeding the target in some secondary subjects where it can be easier to recruit. We are asked in particular to monitor the uptake of undergraduate courses at secondary undergraduate level. We also ask you to ensure that every effort is made to recruit high quality candidates to target to those subjects in the priority recruitment category.

### **Further information**

12. For further information, contact Kimberley Meringolo (tel 029 2068 2258; email [kimberley.meringolo@hefcw.ac.uk](mailto:kimberley.meringolo@hefcw.ac.uk) ).
